

How to reset the current configuration to factory default?

It is suitable for: N150RA, N300R Plus, N300RA, N300RB, N300RG, N301RA, N302R Plus, N303RB, N303RBU, N303RT Plus, N500RD, N500RDG, N505RDU, N600RD, A1004, A2004NS, A5004NS, A6004NS

Application:

If you can't access the router's setup interface or simply forgot the router's password, you may reset the current configuration to factory default. There are two ways to.

Method 1

STEP-1:

Connect your computer to the router

1-1. Connect your computer to the router by cable or wireless, then login the router by entering http://192.168.1.1 into the address bar of your browser.

→ C ③ 192.168.1.1

Note: The default IP address of TOTOLINK router is 192.168.1.1, the default Subnet Mask is 255.255.255.0.

If you can't log in, Please restore factory settings.

1-2. Please click Setup Tool icon

to enter the router's setting interface.

Version4-10.06.8

1-3. Please login to the Web Setup interface (the default user name and password is admin)

a username and password.
is not private.
Log In Cancel

STEP-2:

Click Advanced Setup->System->Config Backup/ Restore on the navigation bar on the left.

STEP-3:

Click Factory Default to reset the router's configuration.

G Config Backup/Restore					
	Config Backup	Download configuration file on your PC			
	Choose File No file chosen	Destars configuration by using Downloaded configuration			
	Config Restore	Restore conliguration by using Downloaded conliguration			
	Factory Default	To restore the factory default configuration, click this button.			

STEP-4:

Click OK and wait for few seconds to finish resetting.

192.168.1.1 says:		×
Do you really want to reset the current settin	gs to default?	
Prevent this page from creating additional dialogs.		
	ОК	Cancel

Method 2

Only by one click on the RST/WPS button

STEP-1:

Press and hold the RST/WPS button for about 10 seconds, until the CPU led blink quickly.

STEP-2:

After nearly 30 seconds, resetting is finished.
