

How to Setup Open VPN on A2004NS

How to access A2004NS USB shared U disk video, pictures?

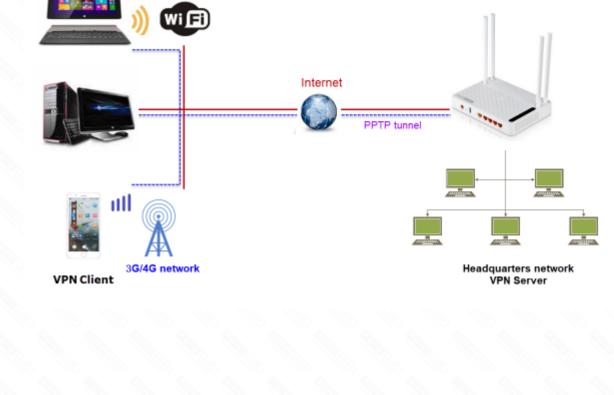

It is suitable for: A2004NS, A5004NS, A6004NS

Application:

PPTP VPN's PC-to-site mode provides a secure tunnel for the terminal to access the headquarters network. If you are on a business trip and have access to the Internet. Use the VPN client dial-up connection that comes with the terminal to establish a secure tunnel for data transmission. Note: IOS 10 systems or higher systems can't use PPTP VPNs
