A3002RU FTP server instal

It is suitable for : A3002RU

Application introduction:

File server can be build quickly and easily via the USB port applications so that file upload and download can be more flexible. This guide introduces how to configure FTP service via the router.

STEP-1:

Connect your computer to the router by cable or wireless, then login the router by entering http://192.168.0.1 into the address bar of your browser.

 $(\leftarrow) \rightarrow$ C' (\triangle)

Q 192.168.0.1

Note:

The default access address varies depending on the actual situation. Please find it on the bottom label of the product.

STEP-2:

User Name and Password are required, by default both are **admin** in lowercase letter. Click **LOGIN**.

STEP-3:

Set the FTP server account password.
